P E T I T I O N

By means of this petition we, the undersigned, are calling for:

- 1) Facilitation and fostering of **public debate** on contents, aims and methods of the telepathy rituals that have so far been kept secret and the organisation(s) performing them. What is meant are kinds of initiation rituals, generally known about but nonetheless kept secret, carried out on young persons and adults by means of telepathy and social role play.
- 2) To enable this debate to take place, we call for a **legal framework to make the entire issue of telepathy ritual and telepathy organisations a matter for debate in the public sphere.**
- 3) **Statutory regulations on transparent democratic control** of the telepathy/ritual organisation(s) in question that are kept secret at present.
- 4) A full **inquiry into the actual effects of the ritual on the individual and society and its risks by a number of independent teams of experts.** The results are to be made generally accessible and a broad public debate facilitated.
- 5) The **formulation of alternatives that support development of the personality of young persons and adults from the ethical point of view and in terms of their self-responsibility and without the risks of traumatisation and repression.** Both broad sections of the public and relevant experts should be involved in the development of these alternatives.
